

3 IN 1 POWER CABLE IN NECK STRAP (LANYARD), WITH USB-C (Type-C), LIGHTNING AND MICRO USB

A practical 3 in 1 power cable built into a neck strap. Simply unclip the strap from the cover and you will find a USB connector at one end and you can choose either micro USB, lightning or USB-C (Type-C) at the other end. The cable is 90 cm long and comes in several different colours. A great advantage of this power cable is the large area for printing, not only on the polyester strap, but also on the plastic cover. The strap also has a practical carabiner key ring for your keys or a name tag.
