

Portable (external) HDD with capacity of 500 GB or 1 TB

A portable hard drive is an extremely practical premium gift. It can be used to transfer large volumes of data and also for data storage. The drive's small size (2.5") makes handling and transport easy. The recording disks, read heads and electronics of the hard drive are made by the renowned hard drive manufacturer Western Digital. Transfer of data from a computer to the drive and vice versa is ensured by a USB 3.0 interface which is backward compatible with USB 2.0. Connection to a computer is easily accomplished with the aid of Plug-And-Play meaning that you don't have to install any drivers or software.

Product code: HDD001

Minimum order: on request

Availability: na dotaz

More parameters:

Compatibility: MS Windows 10/8/7/Vista/XP; Mac OS 8.X - 10.X, Linux kernel 2.4 or higher

Plug and Play - no driver installation required

Technology: traditional HDD, 2.5 inches

Interface: USB 3.0 (reverse compatible with USB 2.0), UASP (USB attached SCSI - rapid file transfer support)

Connectivity: USB 3.0 B (disk) - USB 3.0 A (computer)

Material: Aluminium case, ABS plastic

Compact size

Data protection: no HW protection

Capacity	HDD/SSD 3.0 1TB, HDD/SSD 3.0 500GB,
