

FOLDING BLUETOOTH KEYBOARD WITH PHONE/TABLET REST

This universal folding Bluetooth keyboard is ideal for connecting to a tablet or mobile phone. You can connect this thin keyboard to your device using Bluetooth 3.0 technology. It is compatible with iOS, Android and Windows. Its connection range is up to 10 meters. Its practical folding mechanism lets you fold this small aid for your office work into a hand bag. Once unfolded, the keyboard is comfortable to use thanks to its stand for mobile devices. This folding Bluetooth keyboard is made of plastic. You can choose from several colours and you can also add a customized imprint.
