

LCD 7" VIDEO BROCHURE

Video brochure (video booklet) - digital presentation of a new generation! This hi-tech presentation will certainly attract attention of your clients. LCD display integrated into a luxury presentation folder, which is printed with your design. After opening, the video files start to play in a loop, the files can also be started with individual buttons. The variant where individual buttons start the same video, but in different language versions is also popular. The sound is played from an integrated speaker or from headphones. Volume control buttons can be added. Excellent as a company or product presentation, effective invitation to events or an original PF. The videos can be played and replaced with other ones, the rechargeable battery enables long-term use of video brochures.
