

MINI WIRELESS CHARGING PAD 15 W WITH CMYK + LED LOGO

This small wireless charging pad with LED logo will fit into any bag and is ideal for use when travelling. The great-looking packaging in a practical box complements the original design of the charging pad, which you can create for yourself thanks to the option of full-area CMYK printing. The wireless charging pad is able to charge your mobile phone thanks to modern wireless technology. If your mobile phone does not support this technology, all you have to do is connect a small external receiver. Charging efficiency is greater than 73%. A LED logo of your choice can be added to light up on the charging pad when active.

Product code: PBQ025

Minimum order: on request

Availability: 2 - 4 weeks

More parameters:

Allows the wireless charging of mobile phones supporting the Qi wireless charging standard.

Wirelessly charging a standard mobile phone battery to full capacity: around 3 h

Connectivity: micro USB (input), Wireless induction 5 W (output)

Input voltage and current: DC 5 V / 1 A

Output voltage and current: Wireless induction 5 W (5 V / 1 A)

Wireless charging efficiency: over 73%

Material: plastic
