

SQUARE WIRELESS CHARGING PAD WITH CMYK + LED LOGO

Would you like to charge your mobile phone without having to bother with the connecting of cables, which only get in the way during the carrying or handling? It is possible with this wireless charging pad with LED logo. Today more and more modern mobile phones support wireless charging technology. If, however, your telephone does not have this function, you just need to get an external Qi compatible receiver in the form of a thin card which you connect to the telephone. A unique feature of this charging pad is the beautiful LED backlighting, so your logo or image stands out perfectly. You can equip the charging pad with your choice of a color stamp. And we can also modify the rest of the pad according to the customer's requirements and create them in the customer's Pantone colors starting from 50 units!

Product code: PBQ026

Minimum order: 50 pcs
