

## 2-IN-1 FOLDING QUICK-CHARGING PHONE STAND WITH TOUCH LED LAMP

You will fall in love with wireless charging of your mobile phone thanks to this beautiful fast-charging stand with a touch-control LED lamp. It is also possible to charge the telephone in its folded form, where it acts as a pad. Then it can simply be unfolded into an elevated stand and the color backlighting can be turned on using the touch control. You can choose from white, red, blue, green or orange light and several lighting modes, where the lamp can shine constantly, blink or smoothly alternate between the individual colors. The wireless charging works with a standard speed of 5 W or at a high-speed 10 W (if the charged device permits). To take full advantage of the fast charging, it is necessary to connect the lamp to an outlet using a Quick Charge Compatible USB adapter (which can be included as an accessory).
