

Power bank with wireless charging, CMYK + LED logo, 8000 - 10000 mAh

This practical wireless power bank with a USB port and wireless charging is a convenient device for placing on a table or carrying in your bag. The advantage of this square-shaped power bank is the opportunity for wireless charging using induction technology. If your telephone does not have the Qi charging function, it is possible to equip it with an external Qi compatible receiver. The possibility of also charging from a classic USB port makes this wireless power bank a modern, though universal, gift for everyone. At first glance you will be drawn to the LED backlighting, which perfectly emphasizes your logo created by a full embossed CMYK print. You can choose from an endless number of colors, because we supply the power bank in your own color from the Pantone pallet starting from 50 units! We can complement this power bank with a capacity of up to 10000 mAh with a luxurious transparent box, which lets the unique graphics shine through from the packaging.

Product code: PBQ10192

Minimum order: 50 pcs

Availability: 3 - 5 weeks

More parameters:

Allows the wireless charging of mobile phones supporting the Qi wireless charging standard. USB port for charging smartphones (Android), iPhones, Windows Phones, iPads and tablets (Android), and also a wide spectrum of electronic devices (cameras, video cameras, navigation devices, portable electronics, e-cigarettes, e-readers, portable games consoles, etc.)

Battery type: Class A lithium polymer

Battery capacity: 8000/10000 mAh

Full charges of a standard mobile phone battery using the USB port: 2 x (8000 mAh), 2.8 x (10000 mAh)

Wirelessly charging a standard mobile phone battery to full capacity: around 3 h

Connectivity: USB-C (Type-C) (input), USB-A (output), Wireless induction 5 W (output)

Input voltage and current: DC 5 V / 1-2 A

Output voltage and current: USB DC 5 V / 2 A, Wireless induction 5 W (5 V / 1 A)

Capacity display: LED diodes

Material: plastic
