

## WIRELESS SPEAKER WITH TWS FUNCTION AND HIGH SOUND QUALITY

This small speaker is able to play music and other audio files in a high level of quality thanks to its unique design. The speaker achieves clean sound with massive bass thanks to use of two separate speakers, separately for low or higher frequencies. Extreme wireless communication range - up to 20 m! The front of the speaker offers space for allover CMYK printing. Any two of these speakers can be linked via the TWS (True Wireless Stereo) function to provide true stereophonic listening without any noticeable distortion.

**Product code:** SPE2178

**Minimum order:** 50 pcs

**Availability:** 3 - 4 weeks

### More parameters:

Portable active speaker (with built-in amplifier) connected wirelessly to a player (compatible mobile phone or tablet).

Type of system: Stand-alone speaker, active, portable

Construction: mid-base and treble speaker

Battery type and capacity: lithium polymer, 480 mAh
